

Let the wind pass

Poor of the wind ...,
Goes been hitting the buildings
built without an programming
for to let it circulate freely

Let the wind pass,
and to carry the thoughts
polluted by destructive things.

Let the wind pass,
like a broom,
and sweep away all pollution.

When the wind gets angry,
and comes as a hurricane,
the people think
which is a curse.

Let the wind pass,
for later
not complain.
