I do not do an experimental poem ...  
I make a poem with sugar and salt.  
Sometimes I put pepper,  
to see if it gets hot.

I do not make an invented poem.  
I only make a poem if it is inspired.  
Sometimes it gets very sweet,  
sometimes very salty ...

My only problem  
and that I write poems  
without worrying me  
with scheme.

Sometimes I carry some ideas  
between the lines,  
because unfortunately  
the words do not shine alone.
